

Application for T32 Research Fellows (2022-2023)

Our T32 fellowship-training program for 2022-2023 will have a submission deadline for **February 1, 2022**. We do accept applications year-round as there may be training slots available, depending on funding options for current trainees, and other factors. Outstanding candidates who wish to train at the UW may also be eligible for training opportunities in other research fellowship programs outside of our own department. Therefore, we encourage all interested applicants to apply.

The University of Washington strongly encourages applications from all groups that have been shown by the National Institutes of Health (NIH) to be nationally underrepresented in health sciences research training. This includes certain racial and ethnic groups, persons with disabilities, or persons from a disadvantaged economic background. If any of these apply, please include that information below.

Instructions:

Please type or print legibly in ink. Each part should be answered completely and accurately. If a question is not applicable, enter "N/A". An incomplete application may delay action or disqualify you. Please do not enter "see CV".

These are the required documents to complete your application:

- Application form
- Current Curriculum Vitae
- A short description of research interests and career goals that outlines a proposed course of future research
- Two letters of recommendation
 - Letters can be emailed directly to Stephanie Park

Please e-mail completed applications to Stephanie Park – spark@medicine.washington.edu
